Witness Statement of Lena Moretti (Operations Supervisor)

WITNESS STATEMENT

Case Reference: CASE-20260103-d1e9d8b9

Statement Date: janvier 03, 2026

STATEMENT:

I, Lena Moretti, am employed as an Operations Supervisor. This statement is given voluntarily.

Statement recorded on **2026-01-02T22:20:00-05:00**.

I understand this is an official statement and I am providing the information to the best of my knowledge and memory.

On the day of the incident, I was on duty in my normal supervisory role. My tasks included monitoring workflow, checking that required areas were staffed, and handling routine operational issues.

At approximately the time reflected in **EV001** and later events in the timeline (including **E001** and **E002**), I became aware that something was wrong based on an interruption to normal operations and staff communications. I moved to assess the situation in person and to support staff who reported the issue.

I observed that access and movement in the area were being controlled and that staff were being told to pause certain tasks. I did not touch any items that could later be considered evidence. I focused on keeping people back from the immediate area and ensuring that work stopped where needed.

During this period, I communicated with other staff about what I could see and what actions were being taken. I also noted that a record of activity relevant to the incident should exist, and I understand that related materials were captured/retained as evidence under **EV004** and **EV005**. I did not personally collect these items; my role was limited to supervising and maintaining order.

I remained available to provide information to responders and management. I later became aware that additional documentation was produced and secured as part of the investigation, including items logged as **EV007**, **EV009**, and **EV010**.

I am not providing any opinion on who may be responsible. I did not see any person commit a specific act related to the incident.

I can confirm that my observations are based on what I personally saw and the operational steps I took at the time (restricting access, pausing tasks, and communicating to support continuity and safety). If needed, I can clarify which staff I spoke to and the order of my actions, but I did not keep personal notes beyond standard operational communications.

I understand that my account may be compared to the records referenced above (e.g., **EV001**, **EV004**, **EV005**) and the established timeline events (**E001**, **E002**, **E004**, **E005**, **E006**, **E008**).
