REPORTING / DISPATCH

Call Type	Business burglary alarm / discovered forced entry
Complainant	Overnight staff (employee discovered damage during closing tasks)
Injuries	None reported
Property Taken (Initial)	Cash from register (amount pending confirmation)

SYNOPSIS

On 2026-05-10 at approximately 03:18 local time, officers responded to a report of a burglary at a 24-hour diner in Eugene, Oregon. Initial observation noted damage consistent with forced entry at the rear service door and an emptied register drawer. No persons were located on scene as suspects at the time of response, and no injuries were reported.

SCENE OBSERVATIONS (INITIAL)

- Rear service/back door: visible frame/strike-area damage consistent with prying or forced manipulation.
- Interior: register drawer observed open/emptied; no immediate indication of vandalism beyond point-of-entry and cash access.
- Rear hallway: faint floor impressions/debris track noted between rear corridor and front counter area (photographed for reference).
- No signs of physical altercation; business remained otherwise intact.

PRELIMINARY TIMELINE (PER INITIAL REPORT)

Time (local)	Event	Source
2026-05-10 03:18	Burglary incident time reference used for report/timeline anchor	Initial report / scene assessment
2026-05-10 09:05	Case opened / report filed into case system	Case metadata / records

Additional minute-by-minute timing to be corroborated with POS logs and security footage (01:30–04:30 window).

INITIAL STATEMENTS (SUMMARY)

- Staff indicated the damage was discovered during normal overnight duties/closing tasks.
- Staff reported the register cash missing and believed entry was made via the back door.
- Staff noted the business remained open overnight and that routine activity continued near the front area during the relevant window (to be verified by camera and POS records).
