Exhibit Ref	asset.office_phone_call_log
Location	Eugene, Oregon
Incident Date/Time	2026-05-11T03:18:00-07:00
Custodian	Diner office landline (provider CDR export)
Generated At	2026-05-11T09:05:00-07:00
Document Type	Call Detail Records (CDR)

SUMMARY

This exhibit is a call-detail record (CDR) style log for the diner's office landline for the overnight period surrounding the reported break-in (03:18). It is intended to corroborate the claimed vendor call referenced in the overnight supervisor statement and to constrain who could have been in the office during the entry window.

CALL LOG (EXTRACT)

Timestamp	Direction	Other Party	Duration	Notes
2026-05-11 02:41:12 PDT	Outbound	Unknown / Vendor line	00:02:18	Short call; pre-incident.
2026-05-11 03:07:33 PDT	Outbound	Unknown / Vendor line	00:06:04	Call occurs within the claimed office-phone window prior to 03:18.
2026-05-11 03:16:58 PDT	Inbound	Unknown	00:00:22	Brief inbound call immediately preceding the 03:18 incident time.
2026-05-11 03:24:10 PDT	Outbound	Unknown	00:01:11	Post-incident; likely follow-up/notification.

Times shown are local (America/Los_Angeles). "Other Party" labels reflect provider export limitations where caller ID was not resolved in the draft materials.

RELEVANCE TO 03:18 WINDOW

- The 03:07 outbound call supports that the office phone was used shortly before the reported 03:18 break-in.
- The brief inbound call at 03:16:58 occurs immediately before 03:18 and may overlap with staff movement/attention in the office.
- Additional corroboration should be sought by matching "Other Party" numbers to vendor contacts and comparing with POS closeout timing.
