

Nightly Cash Count & Close-Out Sheet

Diner Close-Out Worksheet (Overnight Shift) — Incident Date 2026-05-11

Layout: EvidenceDocument

Case Ref	case_rookie_hardened
Exhibit Ref	asset.shift_cash_count_sheet
Incident Date/Time (Anchored)	2026-05-11 03:18 (America/Los_Angeles) — reported break-in window
Case Opened (Anchored)	2026-05-11 09:05 (America/Los_Angeles)
Source/Custodian	Diner management (night-shift close-out binder)
Collection Notes	Provided as a photocopy/scan; original reportedly kept on-site in cash office binder.

EVIDENTIARY PURPOSE

Use this sheet to establish baseline expected cash (register + tip jar) and identify who handled the cash procedures prior to discovery of the loss. Compare with POS export (02:30–04:00) and register/tip-jar scene photos to identify discrepancies or irregular close-out steps.

DOCUMENT IDENTIFICATION (AS RECEIVED)

Document Type	Nightly cash count / close-out worksheet
Shift	Overnight / graveyard shift
Business	24-hour diner (Eugene, OR)
Coverage Relative to Incident	Close-out activity occurred prior to or around the 2026-05-11 03:18 incident window (exact timestamps to be cross-checked with POS export and staff statements).

FIELDS TYPICALLY PRESENT ON THE CLOSE-OUT SHEET (TO BE EXTRACTED/ENTERED)

Section	Field	Observed/Recorded Value	Notes for Comparison
Header	Date of business/shift	—	Confirm it matches incident date 2026-05-11.
Register	Starting drawer (float)	—	Should match standard float policy; confirm with management.
Register	Cash sales total	—	Cross-check against POS cash tender totals (02:30–04:00 export).
Register	No-sale/void count	—	Flag unusual frequency; reconcile to POS events.
Register	Expected cash in drawer	—	Baseline expected cash prior to theft discovery.
Register	Cash drop amount / safe deposit	—	If recorded, indicates when cash was removed from drawer.
Tips	Tip jar count (cash)	—	Compare to tip-jar scene photo and staff accounts.
Totals	Over/short amount	—	Critical for identifying whether discrepancies existed prior to break-in.
Verification	Prepared by (name/initials)	—	Identify who performed the

			count/close-out steps.
Verification	Witness/manager check (name/initials)	—	Establish secondary handling/ verification, if any.
Notes	Comments/irregularities	—	Look for mentions of door issues, interruptions, or missing cash.

Blank values indicate fields to be transcribed from the sheet image/scan during evidence processing.

RELEVANCE TO KNOWN PERSONS

- The worksheet may identify which staff member handled the register and tip jar immediately prior to the 2026-05-11 03:18 break-in.
- This is particularly relevant given that the graveyard-shift server routinely handles the register and tip jar, and a verified off-site urgent care visit places the night-shift manager away from the diner during the incident window.
- Any pre-existing over/short notes may support or contradict claims about whether the loss could be explained as routine discrepancy versus a discrete theft event.
